About Company

ZHIPL is a leading steel fabrication industry with a broad range of experience in the manufacture of highly complex steel structures. We produce a complete line of bridge structures, from plate girder bridges found in highway overpasses and interchanges to complex bridges such as arch, bascule (drawbridge), cable- stayed, lift, railroad, suspension and truss designs. We also offer additional heavy/complex steel structure fabrication.

When a demanding and challenging project requires Structural Steel Fabrication, turn to our unmatched capabilities to meet their complex design-build requirements. As the recognized industry leader in the fabrication, design, engineering, and erection of structural steel throughout India, the core priority of our company is to successfully exceed client expectation by focusing innovation, knowledge and commitment on every commercial, industrial and public structure we assemble.

We have two state-of-the-art facilities in the Delhi NCR and with more than 22,660 square feet of fabrication workspace on 26,000 square feet. Our plants have close proximity to highway transportation, giving us substantial reach into the India market for projects. While ZHIPL is a new company, it has roots that go back over 38 years at our facility in Zakir Hussain.

ZHIPL operations encompass more than 4 facilities and 500 employees in India. Its businesses are engaged in a wide range of industries, including Steel Bridge, Foot Over Bridge, Heavy Steel Structure Fabrication, Pre- Fabricated Building, Floods Gates, Silos, Steel Shuttering Plates, Scaffolding Items, Road Sign Board & Road safety Equipments.

A Bright Future

Outfitted with comprehensive computer numerical control and cutting-edge paint equipment, ZHIPL provides up to 30,000 tons of fabricated structural steel for simple and complex bridge or heavy steel fabrication projects throughout the India on an annual basis.

As the need for India infrastructure improvement continues to grow, the opportunities for ZHIPL will too. With the renewed commitment to our customers and business partners, we look forward to new challenges while honoring the memories and accomplishments of the past.

Our Values and Principles

We build bridges that connect complex transportation systems and serve the economic and personal needs of our society. We are committed to providing bridges that meet or exceed our needs in a safe, timely and cost-effective manner. We take great pride in the bridges we build:

1. We are committed to working safely by keeping physically and mentally fit.
2. We perform our jobs to the best of our ability every day. We do not compromise safety.
3. We are committed to producing high-quality products that exceed our customers' expectations.
4. We are committed to open, honest, fair and consistent communication with actions that match what we say.
5. We are committed to effectively prioritizing and organizing our work, and to being on time.
6. We are dedicated, disciplined and loyal to the organization.
7. We NEVER give up.
8. We are in control by planning and being prepared and proactive.

Our Management Team

Zakir Hussain

Managing Director

Zakir Hussain brings over 40 years of Fabrication & Erection experience, He has overseen aspects of over 500 bridge fabrication projects commercial, and operational expertise and a highly successful track record to ZHIPL. He has served important role in a variety of Steel Fabrication & Erection Projects.

Irfanul Haque

Vice President

Irfanul Haque having 20 years experience in steel structure business in different profile like Sales & Marketing (Business Development)/Project Management (PMG)/Production & Operation. He is expertise in PEB, Heavy Fabrication and all kind of steel bridges like power plants, Metros, Ware house, Malls all kind of FOB's & ROB'S. He is graduate in Mechanical Engineering and post graduate in business management and certified chartered and profession engineer in Mechanical. He is alumni of A.M.U. Aligarh, U.P. Tech. University Lucknow, AIM Nagpur, Engineering Council of India (ECI), Institution of Engineers India (IEI) and also corporate member of IEL.

Dheeraj Singh

GM Operation

Dheeraj Singh has 20 years of Heavy Steel Structure & bridge fabrication & erection experience, He has overseen aspects of over various fabrication projects, including estimating, project management and operations management. Mr. Dheeraj is a graduate of Rajasthan Board and continued his B.TECH in Mechanical at the Rajasthan Technical University.

Shaban Nazar

Civil Engineer

Shaban Nazar has 35 years of Construction management experience, including 20 years of executive leadership. Prior to ZHIPL, he was EE of JKPWD from 1980 to 2000 and also served as J.G.M. of IRCON from 2001 to 2006. Shaban has also held positions with M.D. in JKPCC Ltd. He earned a M. TECH in Civil from the IIT DELHI.

Ishfaq Ahmed Zargar

Planning Engineer

Ishfaq Ahmed has 30 years of bridge fabrication experience, with 19 years in executive management and leadership positions. He has overseen aspects of over 300 bridge fabrication projects, including estimating, project management, sales and operations management. Mr. Ishfaq is a graduate of Kashmir Board and continued his B. TECH in Civil at the University of Kashmir.

Project Management

With a wide range of knowledge that includes simple railroad and highway spans to complex bridges and state-of-the-art structures, ZHIPL project management team provides expertise, guidance and dedication to owners and customers.

We offer the following project management services:

Value engineering to maintain and/or reduce project costs.

➤ Coordination of all interfacing parts to ensure accurate fit-up including structural steel, bearings, mechanical and electrical elements, and ancillary pieces

Scheduling assistance between all parties in order to complete your project on time

➤ Consistent communication of project status between ZHIPL and customers

➤ On-site assistance for owners and customers

➤ Our team is committed to meeting expectations through proper planning, preparation and proactive attitudes. We complete each project on time and on budget.

Detailing/Engineering

We use Auto Cad/Tekla model software to develop our shop drawings. This software allows us to see each component in the entire structure and ensure that all pieces will assemble correctly and according to plan. It also assists in clash detection, allowing us to see issues with fit-up prior to the fabrication of any components. With the ever-rising costs of construction, this type of technology is essential in the fabrication process.

Fabrication Services

ZHIPL has fabrication facilities equipped with CNC cutting, drilling and milling capabilities. We are staffed with skilled CWIs, production planning teams, and experienced bridge fabricators and painters. Each of our plants has its own unique strengths and assets, which makes ZHIPL the optimal choice for any type of steel bridge or heavy/complex steel structure.

Ghaziabad Plant

Our Ghaziabad Plant facility has a history that stretches back 18 years. With more than 22,660 square feet of interior space on a 25-acre storage and assembly yard and a lifting capacity of 30 tons, largest facility and is capable of handling multiple large jobs concurrently. ZHIPL excels at complex bridges, as well as plate girder and heavy/complex steel structures.

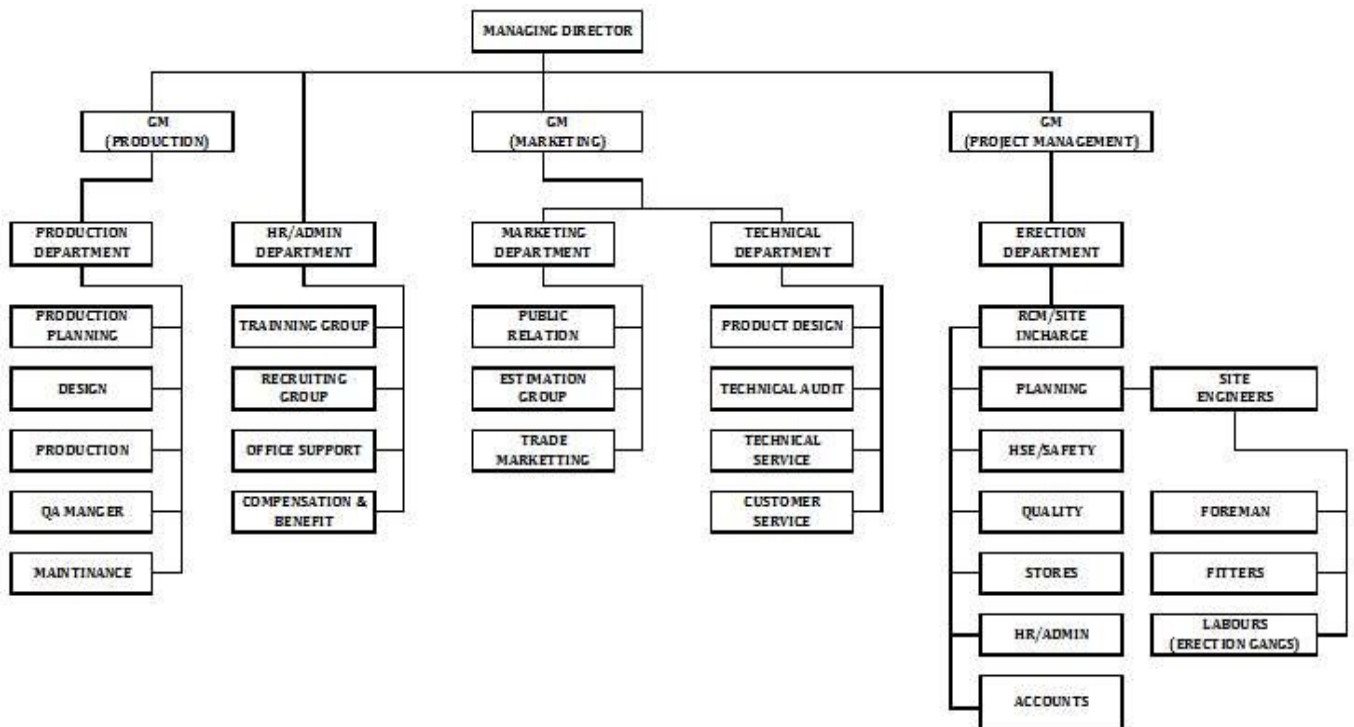

Srinagar Plant

Our Srinagar plant is a mid-sized, bridge fabrication facility located at SIDCO Industrial Complex of Srinagar in the heart of City. The plant handles plate girder work in its huge bridge bay. While specializing in plate girder fabrication, Srinagar plant also works closely with our **Ghaziabad Plant** to fabricate components for larger bridges.
